Heba Syijari

Software Engineer | Front-end developer (React.js)
Aleppo, Syria • +963 952457853 • symaherhiba@gmail.com
[My-Portfolio](#) ● [LinkedIn](#) ● [GitHub](#) ● [WhatsApp](#)

Experienced Software Engineer specializing in front-end development using ReactJS. Skilled in building large-scale web applications with clean, efficient code. I have a foundational understanding of back-end technologies like Node.js.

WORK EXPERIENCE

Software Developer
Innovura
KSA, Riyadh, Remote   3/2023-11/2024
- ❖ Atlassian · JIRA · Jira cloud developer · Forge · Bitbucket · React · React Query · Tailwind
- ❖ Letter of Recommendation from INNOVURA

PROJECTS

CodeAI *(link)*   6/2024-11/2024
Intelligent code scanner to analyze and evaluate code changes.
- ❖ integrated and deployed the tool within git, automating the code review process in a collaborative environment.
- ❖ UI Design and Integration, Jira cloud developer, Atlassian Design System.

IdeaPortal *(link)*   5/2023-6/2024
This application, developed with Innovura, facilitates user interaction through a portal for sharing and discussing ideas, opinions, and complaints. Users can create new threads, explore existing ones, comment, and express support through voting.
- ❖ Administrators have complete control over the website's appearance, including colors, forms, and layout.
- ❖ Infinite scrolling in post, Detail with Figma.

Multi Project Customfield *(link)*   3/2023-7/2023
I developed with Innovura a "Multi Project Picker" feature for Jira Cloud, allowing users to reference multiple Jira projects in a single custom field.
- ❖ Jira cloud developer, Atlassian Design System.

BabyShop *(link)*   5/2023-8/2023
E-commerce platform for a children's clothing and accessories store, offering customers a seamless shopping experience and providing comprehensive inventory and promotional management tools for store administrators.
- ❖ React, Redux, Bootstrap, NodeJs, ExpressJs, mongoDB.

LeaLap *(link)*   1/2023-4/2023

This project aims to empower clinics to deliver better and more efficient healthcare services by providing an integrated health information system that serves the needs of doctors, staff, and patients alike.

❖ Work with a team, Multilingual website.

EDUCATION

Bachelor's Degree Informatics Engineering (Artificial Intelligence)   1/2025
Aleppo University, Syria – Grade 82.4%
